

5 Ways to Make Your Membership Work for You

1 Boost SEO

Your profile in our online Member Directory naturally fuels SEO by linking back directly to your website. Add company social media sites, logos, photos, and promotional videos to your user profile to organically boost your company SEO. If your membership level does not include an enhanced listing, contact us to upgrade!

2 Manage Membership

Use our Member Login to manage your membership information. Keep your company name, address, and representatives up to date. All reps listed in your profile are automatically added to our email communications database. Invoices are e-mailed directly to the billing contact set up on your membership profile, and representatives can log in and easily pay current invoices online.

3 Events

Register yourself and your team for chamber events through the Chamber Events calendar link. Create your own events and promote them to both Chamber members and the community by posting them on the community calendar.

4 Save Money

Through our Member-to-Member Discount Program, you and all of your employees can take advantage of exclusive members-only discounts offered by other Chamber members. Thirty-three discounts are currently available for the 2020 calendar year!

5 Post Jobs

Hiring? Post job openings on wakeforestworks.com and they will be publicly accessible to local job hunters. Only Chamber members may post jobs on this website, making this an exclusive members-only benefit.
